CIRCULAR NO. 323, by Paul Mehl, Senior Agricultural Economist,
Grain Futures Administration, entitled:

TRADING IN PRIVILEGES ON THE CHICAGO BOARD OF TRADE

is now off the press and may be purchased from the:

Superintendent of Documents
Government Printing Office
Washington, D. C.

at a cost of 10 cents a copy. (Stamps are not accepted.)

This publication (comprising 80 pages, including numerous statistical tables and charts) presents the results of a comprehensive study of trading in privileges in grain futures (known also as "indemnities," "puts and calls," and "bids and offers"), as conducted on the Chicago Board of Trade at intermittent periods from the early sixties until suspended by the board, July 24, 1933. This is believed to be the only comprehensive report ever published of the extent of trading in privileges, the purposes for which employed by merchandisers of grain and by speculators, the frequency with which they were exercisable at a profit to purchasers, and their economic value.

Note: Because of the wide fluctuations in foreign exchange, which began September 21, 1931, and are still continuing, the Liverpool prices are calculated from the closing price of the pound sterling on the money exchange and the closing price of Liverpool futures on the grain exchange, while the Winnipeg prices are calculated from the closing price on the Winnipeg Grain Exchange and the premiums or discounts on Canadian currency as furnished by one of the large Chicago banks.

The following table shows the reported high, low and closing quotations on the pound sterling, together with the high, low and closing per cent premiums or discounts applied to Canadian currency:
